We have divided main page into 3 sections: -

1.

This is the topmost section which has the current information of your total balance, how much you spend and how much you earn.

Your balance

2. This is the middle section of the main page which shows the history of expenditure by the user.

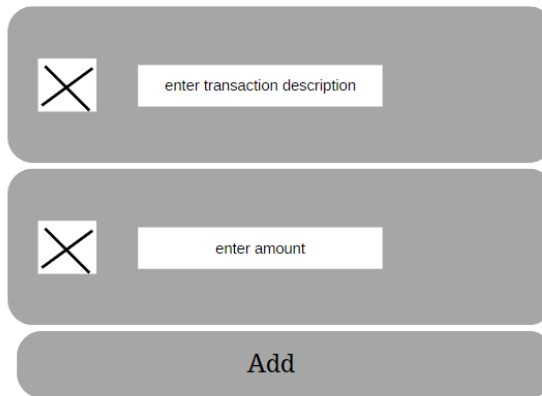

History

The **Crossed Sections** in above sample can be used for images and icons.

3. This is the lowest section on our main page which functions for addition of new transactions done by the user.

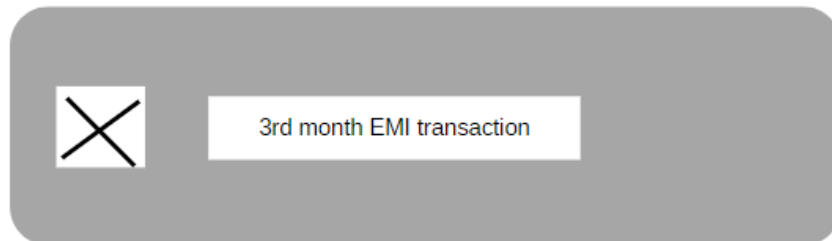

Add new transaction

The image shows a UI mockup for a 'Add new transaction' form. It consists of three rounded rectangular boxes stacked vertically. The first box contains a square icon with an 'X' and a text input field with the placeholder text 'enter transaction description'. The second box contains a similar square icon with an 'X' and a text input field with the placeholder text 'enter amount'. The third box is a solid gray button with the text 'Add' centered inside it.

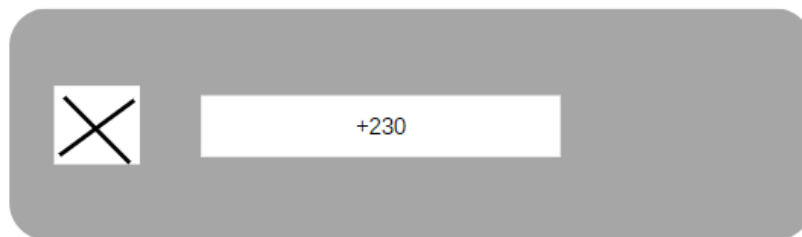

In this section, we have two input fields.

1. Enter transaction field: A user is supposed to enter the transaction details in text or string format.

The image shows a UI mockup for the transaction description input field. It is a rounded rectangular box with a gray background. On the left side, there is a square icon with an 'X'. To the right of the icon is a white text input field containing the text '3rd month EMI transaction'.

2. Enter amount field: A user is supposed to enter the amount in two ways, first with "+" sign before amount if a user got the money as earning and second is as "-" before the amount if user spend the money.

The image shows a UI mockup for the amount input field. It is a rounded rectangular box with a gray background. On the left side, there is a square icon with an 'X'. To the right of the icon is a white text input field containing the text '+230'.
